As browser can load only 4 files in parallal on midsie traffic website, then latency time and number of resources to donwload impact time to load more resources

Odoo load **faster** because concatenate several files, minify and gzip the content, even all the modules installed

# W3C Markup Validation

**HTML Validation** 

## W3C Check

Using: W3C Markup Validation	Odoo ( ver. <u>Saas</u> 4 )	Drupal ( ver. 7.27 )	<b>M</b> agento ( ver. 1.8.1.0 )	Prestashop ( ver. 1.6.0.6 )
Home Page	29 Errors	0 Errors	2 Errors	4 Error
Product Catalogue	68 Errors	2 Errors	2 Errors	122 Errors
Product	10 Errors	0 Errors	1Error	4 Errors

### Odoo's main problem

- Element meta is missing one or more of the following attributes: content, property.
- An img element must have an alt attribute, except under certain conditions
- The width attribute on the table element is obsolete. Use CSS instead.

Team is working on those issues, will be fixed soon

# Maintainability
